**Course** TECH29235      **20 RECERT: MS Office 2007 for Educators**  
**SRN** 102923502      (use this number to register for this session)  
**Description** In this fast paced course, educators will learn to navigate through Microsoft Office 2007 (Word, Publisher, Excel and Power Point). Participants will learn skills to become more productive with administrative tasks and will also create dynamic technology projects that support the curriculum.

Session 1: The New Microsoft Office Interface and Word 2007  
 Inserting Headers, Footers, Tables & Pictures; Adding Labels and Envelopes; Creating a User-Defined Template, and Using the Mail Merge Wizard  
 Session 2: Publisher 2007  
 Creating Business Cards, Flyers, Newsletters, & Brochures  
 Session 3: Excel 2007  
 Inserting and Formatting Data; Adding Formulas & Functions; and Using the Chart Wizard to Create an Embedded Chart  
 Session 4: Power Point 2007  
 Adding Slides, Setting Transitions & Custom Animation, and Inserting images & sounds  
 Session 5 (Session 4 if only 4 sessions): Office 2007 Integration and Class Projects

**Additional Information** *PLEASE NOTE:*

*Intended Audience: K-12 classroom teachers*

*15 contact hours = 20 SDE renewal credits*

*--You must attend the 1st day of class or you will be dropped from the course.*

*--If there are fewer than 10 participants enrolled one week prior to the start date, this course may be cancelled.*

*--Please be considerate of others. If you cannot attend, please go to "My Schedule" and "Drop" the course as soon as possible.*

*--In order to receive credit, you must attend at least 90% of this course.*

<b>Course</b>	TECH29236	<b>20 RECERT: Engaging Learners through SMART Response (SENTEO Clickers)</b>
<b>SRN</b>	102923601	(use this number to register for this session)
<b>Description</b>	<p>SMART Response interactive response system makes it easy to gain immediate insight into student learning. Students respond to questions and quizzes using their wireless remotes, and the results are automatically tallied, summarized and visually displayed in a pie chart or bar graph. You instantly see how well each student has understood the lesson material, so you can adapt lessons as you teach to ensure everyone is keeping up.</p> <p>This course will cover the following topics:          Using the SMART Response System          Setting Up          Creating Assessments          Delivering Assessments          Evaluating Assessments          Additional Resources</p>

**SRN** 102950401                    (use this number to register for this session)  
**Description** Intended Audience: K-12 classroom teachers

45 contact hours / 3 graduate credits / 60 SDE renewal credits

Registration fees for The College of Charleston:

- \* \$105.00 for the course
- \* \$5.00 fee to register online

Prerequisite: Basic computer skills and fluency using MS Word. You will need a log in to the SC Video Streaming site, and you must have a log in to your school's eChalk site. (See your media specialist for your log ins.)

This course is designed for K-12 teachers with basic computer proficiency interested in integrating technology into the ELA curriculum. The emphasis will be on technology integration strategies and projects with a focus on English Language Arts. Participants will design projects and lesson plans using applications such as Photostory, ETV streamline assignment builder, and SMART Notebook.

**Additional Information** *"FREE" graduate credit through the College of Charleston will be provided for CCSD teachers by CCSD (participants are only responsible for \$5 online registration fee).*

*On the first night of class you must complete online registration for the College of Charleston. Please bring the following:*

1. a copy of your teaching certificate
2. a copy of your SC driver's license or state ID
3. credit card, debit card or electronic check for CofC \$5 registration fee

**Course** TECH29912                    **20 GRAD: Using the Interactive SMART Board to Enhance Learning: BEGINNING**  
**SRN** 102991229                    (use this number to register for this session)  
**Description** This graduate course is designed to help teachers integrate the SMART Board into classroom instruction. Teachers will learn the basic functions of the SMART Board Interactive Whiteboard and SMART Notebook 10.0 software to design and use effective interactive lessons. Class activities and assignments will offer teachers integration ideas for classroom use.

SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups – each group containing no more than four members to provide hands-on experience with the SMART Board. Participants will have the opportunity to develop confidence in using the software and instructing with an interactive whiteboard. A computer lab will be available for participants to use when they work individually to plan and create lessons using SMART Notebook 10.0 software.

The assessment of this course will be based on demonstration of skills taught using a rubric for each project.

**Additional Information** *"FREE" graduate credit through the College of Charleston will be provided for CCSD teachers by CCSD (participants are only responsible for \$5 online registration fee).*

**SRN** 102951501                    (use this number to register for this session)  
**Description** Prerequisite: Beginning SMART Board

This course is designed to assist teachers with integrating interactive web resources and multimedia with the Smart Notebook software. Teachers will review the basic tools of the SMART Notebook 10.0 software to plan and design effective interactive lessons. Guided activities and assignments will target intermediate technology competencies and offer teachers integration ideas for classroom use. Teachers will learn to find and save web interactives and multimedia for use in SMART notebook lessons. With the use of specific Notebook 10.0 tools, teachers will be able to insert or link to these dynamic web based resources. Teachers will also learn the basics of online services offered to CCSD by the state and the district.

**SRN** 102921201                    (use this number to register for this session)  
**Description** Find Great Sites for Student Research and Projects!

Do you spend hours on the Internet, searching but not finding those perfect sites for student research? This course will lead you to student-friendly sites for information gathering and student research. Participants will polish their searching skills, explore the best K-12 websites, post links to their eChalk web pages for quick and easy retrieval and create classroom-ready materials to accompany their lessons.

**Additional Information**    *PLEASE NOTE:*

*Intended Audience: K-12 classroom teachers*

*15 contact hours = 20 SDE renewal credits*

*--You must attend the 1st day of class or you will be dropped from the course.*

*--If there are fewer than 10 participants enrolled one week prior to the start date, this course may be cancelled.*

*--Please be considerate of others. If you cannot attend, please go to "My Schedule" and "Drop" the course as soon as possible.*

*--In order to receive credit, you must attend at least 90% of this course.*

**SRN** 102923801                    (use this number to register for this session)  
**Description** Prerequisite: Beginning SMART Board Course

SMART Ideas software brings the power of visual learning to your classroom. Students can better analyze and understand complex ideas by building multilevel interactive concept maps. This course is designed to assist teachers with the integration of the SMART Ideas concept mapping software into classroom instruction. Teachers will learn to use the functions of SMART Ideas concept mapping software to plan and design effective lessons. Guided activities and assignments will target intermediate technology competencies and offer teachers integration ideas for classroom use.

**Additional Information**    *Prerequisite: Beginning SMART Board Course*

*"FREE" graduate credit through the College of Charleston will be provided for CCSD teachers by CCSD (participants are only responsible for \$5 online registration fee).*

*On the first night of class you must complete online registration for the College of Charleston. Please bring the following:*

- 1. a copy of your teaching certificate*
- 2. a copy of your SC driver's license or state ID*
- 3. credit card, debit card or electronic check for CofC \$5 registration fee*

*Intended Audience: K-12 classroom teachers*

<b>Course</b>	TECH29315	<b>20 RECERT: Using the Interactive SMART Board to Enhance Learning - BEGINNING</b>
<b>SRN</b>	102931546	(use this number to register for this session)
<b>Description</b>	<p>This course is designed to help teachers integrate the SMART Board into classroom instruction. Teachers will learn the basic functions of the SMART Board Interactive Whiteboard and SMART Notebook 10.0 software to design and use effective interactive lessons. Class activities and assignments will offer teachers integration ideas for classroom use.</p> <p>SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups – each group containing no more than four members to provide hands-on experience with the SMART Board. Participants will have the opportunity to develop confidence in using the software and instructing with an interactive whiteboard. A computer lab will be available for participants to use when they work individually to plan and create lessons using SMART Notebook 10.0 software.</p>

**Course** TECH29045      **Workshop: BrainPOP! and BrainPOP Educator**  
**SRN** 102904501      (use this number to register for this session)  
**Description** BrainPOP is an engaging and fun online program providing content for Science, Math, English, Social Studies, Health, Arts and Music, and Technology. CCSD has a subscription that allows teachers and students to use this resource for free.

More than 600 animated movies are featured. Each movie is supported by activities such as a quiz, comic strip, experiment and other printable worksheets, all of which speak to kids in a language and voice that they can understand. The movies are age appropriate, interesting, comical, and current in content.

In this workshop, teachers will explore BrainPop and BrainPOP Educators and search for content to use in their classrooms.

**Additional Information** *This session will be conducted by Alicia Brown from BrainPOP.*

<b>SRN</b>	102924101	(use this number to register for this session)		
<b>Description</b>	<p>Purpose of the course and expected participation outcomes: This course will support the district's initiative to integrate technology into the curriculum as well as motivate students. It will enhance student achievement by introducing teachers to the features of Renzulli Learning, assist them in developing assignments and help them explore ways to actively engage all students to deliver differentiated instruction across the curriculum.</p> <p>Course Description: This course is designed to assist teachers with integration of Renzulli Learning System into classroom instruction. Based on more than thirty years of research at the National Research Center for Gifted and Talented Education at the University of Connecticut, Renzulli Learning is a web-based tool that empowers teachers to differentiate instruction across the curriculum. Renzulli discovers each student's unique learning and expression styles and academic interests and abilities then automatically creates a database of standards-based resources that match each student's learning profile. Renzulli's database of more than 35,000 online resources is also searchable by South Carolina Standard Courses of Study, for grades K-8.</p>			
<b>Additional Information</b>	<p><i>This course is for teachers at schools that have subscriptions to Renzulli Learning.</i></p> <p><i>"FREE" graduate credit through the College of Charleston will be provided for CCSD teachers by CCSD (participants are only responsible for \$5 online registration fee).</i></p> <p><i>On the first night of class you must complete online registration for the College of Charleston. Please bring the following:</i></p> <ol style="list-style-type: none"> <li><i>1. a copy of your teaching certificate</i></li> <li><i>2. a copy of your SC driver's license or state ID</i></li> <li><i>3. credit card, debit card or electronic check for CofC \$5 registration fee</i></li> </ol> <p><i>Intended Audience: K-12 classroom teachers</i></p> <p><i>15 contact hours = 1 graduate credit = 20 SDE renewal credits</i></p> <p><i>--You must attend the 1st day of class or you will be dropped from the course.</i></p> <p><i>--If there are fewer than 10 participants enrolled one week prior to the start date, this course may be canceled.</i></p> <p><i>--Please be considerate of others. If you cannot attend, please go to "My Schedule" and "Drop" the course as soon as possible.</i></p> <p><i>--In order to receive credit, you must attend at least 90% of this course.</i></p>

<b>Course</b>	TECH29224	<b>20 RECERT: Web 2.0: Using the New Generation of the Web to Engage Young Learners</b>		
<b>SRN</b>	112922401	(use this number to register for this session)		
<b>Description</b>	<p>The second generation of the Web (Web 2.0) can be described as the use of World Wide Web technology and web design that aims to facilitate creativity, information sharing, and most notably, collaboration. This is a movement away from static web pages to dynamic and shareable content.</p> <p>Using Web 2.0 tools in the classroom helps teachers facilitate creativity and collaboration with students. In this course, participants will learn how to use blogs, podcasts, iGoogle, and other interactive and collaborative online tools to engage students while supporting the curriculum.</p>

**Course** TECH29242                    **20 GRAD: Using the Interactive SMART Board to Enhance Learning: Best Practice**  
**SRN** 112924201                    (use this number to register for this session)  
**Description** Prerequisites: Beginning and Intermediate SMART Notebook Skills

This course is designed to assist teachers with the integration of "best practice" strategies into classroom instruction using the Smart Board. Learn how to use essential skills with SMART Board to make technology more interactive for your students. Model lessons and templates will be shared and teachers will build their instructional tool kits by attending this class.

Teachers will use advanced functions of the Smart Board Interactive Whiteboard and SMART Notebook 10.0 software to plan and design effective lessons that incorporate best practices.

**Additional Information**

*PLEASE NOTE:*

*On the first day of class you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). You also must bring the following:*

- 1. a \$35 check made out to CCSD*
- 2. a copy of your teaching certificate*
- 3. a copy of your driver's license or state ID*

*Intended Audience: K-12 classroom teachers*

*15 contact hours = 1 graduate credit = 20 SDE renewal credits*

*--You must attend the 1st day of class or you will be dropped from the course.*

*--If there are fewer than 10 participants enrolled one week prior to the start date, this course may be cancelled.*

*--Please be considerate of others. If you cannot attend, please go to "My Schedule" and "Drop" the course as soon as possible.*

*--In order to receive credit, you must attend at least 90% of this course.*

**Course** TECH29315                    **20 RECERT: Using the Interactive SMART Board to Enhance Learning - BEGINNING**  
**SRN** 112931502                    (use this number to register for this session)

**Description** This course is designed to help teachers integrate the SMART Board into classroom instruction. Teachers will learn the basic functions of the SMART Board Interactive Whiteboard and SMART Notebook 10.0 software to design and use effective interactive lessons. Class activities and assignments will offer teachers integration ideas for classroom use.

SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups – each group containing no more than four members to provide hands-on experience with the SMART Board. Participants will have the opportunity to develop confidence in using the software and instructing with an interactive whiteboard. A computer lab will be available for participants to use when they work individually to plan and create lessons using SMART Notebook 10.0 software.

**Course** TECH29236                    **20 RECERT: Engaging Learners through SMART Response (SENTEO Clickers)**  
**SRN** 112923601                    (use this number to register for this session)  
**Description** SMART Response interactive response system makes it easy to gain immediate insight into student learning. Students respond to questions and quizzes using their wireless remotes, and the results are automatically tallied, summarized and visually displayed in a pie chart or bar graph. You instantly see how well each student has understood the lesson material, so you can adapt lessons as you teach to ensure everyone is keeping up.

This course will cover the following topics:  
 Using the SMART Response System  
 Setting Up  
 Creating Assessments  
 Delivering Assessments  
 Evaluating Assessments  
 Additional Resources

**Course** TECH29242                    **20 GRAD: Using the Interactive SMART Board to Enhance Learning: Best Practice**  
**SRN** 112924202                    (use this number to register for this session)  
**Description** Prerequisites: Beginning and Intermediate SMART Notebook Skills

This course is designed to assist teachers with the integration of "best practice" strategies into classroom instruction using the Smart Board. Learn how to use essential skills with SMART Board to make technology more interactive for your students. Model lessons and templates will be shared and teachers will build their instructional tool kits by attending this class.

Teachers will use advanced functions of the Smart Board Interactive Whiteboard and SMART Notebook 10.0 software to plan and design effective lessons that incorporate best practices.
