**SRN** 102931530                    (use this number to register for this session)

**Description** This course is designed to help teachers integrate the SMART Board into classroom instruction. Teachers will learn the basic functions of the SMART Board Interactive Whiteboard and SMART Notebook 10.0 software to design and use effective interactive lessons. Class activities and assignments will offer teachers integration ideas for classroom use.

SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups – each group containing no more than four members to provide hands-on experience with the SMART Board. Participants will have the opportunity to develop confidence in using the software and instructing with an interactive whiteboard. A computer lab will be available for participants to use when they work individually to plan and create lessons using SMART Notebook 10.0 software.

**Additional Information** PLEASE NOTE:

<b>Course</b>	TECH29912	<b>20 GRAD: Using the Interactive SMART Board to Enhance Learning: BEGINNING</b>		
<b>SRN</b>	102991220	(use this number to register for this session)		
<b>Description</b>	This graduate course is designed to help teachers integrate the SMART Board into classroom instruction. Teachers will learn the basic functions of the SMART Board Interactive Whiteboard and SMART Notebook 10.0 software to design and use effective interactive lessons. Class activities and assignments will offer teachers integration ideas for classroom use.			
	SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups – each group containing no more than four members to provide hands-on experience with the SMART Board. Participants will have the opportunity to develop confidence in using the software and instructing with an interactive whiteboard. A computer lab will be available for participants to use when they work individually to plan and create lessons using SMART Notebook 10.0 software.			
	The assessment of this course will be based on demonstration of skills taught using a rubric for each project.			
<b>Additional Information</b>	<p><i>PLEASE NOTE:</i>  <i>On the first night of class you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). You also must bring the following:</i></p> <ol style="list-style-type: none"> <li><i>1. a \$35 check made out to CCSD</i></li> <li><i>2. a copy of your teaching certificate</i></li> <li><i>3. a copy of your driver's license or state ID</i></li> </ol> <p><i>Intended Audience: K-12 classroom teachers</i></p> <p><i>15 contact hours = 1 graduate credit = 20 SDE renewal credits</i></p> <p><i>--You must attend the 1st day of class or you will be dropped from the course.</i></p> <p><i>--If there are fewer than 10 participants enrolled one week prior to the start date, this course may be cancelled.</i></p> <p><i>--Please be considerate of others. If you cannot attend, please go to "My Schedule" and "Drop" the course as soon as possible.</i></p> <p><i>--In order to receive credit, you must attend at least 90% of this course.</i></p>

<b>Course</b>	TECH29513	<b>20 GRAD: Collaborative Writing in Digital Environments</b>		
<b>SRN</b>	102951301	(use this number to register for this session)		
<b>Description</b>	This course is designed to guide teachers in integrating wikis into classroom instruction and differentiating content and access with a diverse body of learners. Teachers will learn to create collaborative writing workspaces with multiple pages and clear instructions for students, as well as create and manage student accounts. Guided activities and assignments will target intermediate technology competencies and offer teachers integration ideas for classroom use. Teachers will use a class wiki to access course resources and to contribute to collective ideas and reflections. Teachers will also post links to workspaces and projects created as a course requirement.

<b>Course</b>	TECH29553	<b>60 GRAD: Differentiating Instruction through Technology Integration</b>		
<b>SRN</b>	102955302	(use this number to register for this session)		
<b>Description</b>	<p>This course is designed for K-12 teachers who have knowledge of basic computer skills and want to use that knowledge to assist them with differentiation in their classrooms. The emphasis will be on using technology to assist in creating differentiated instruction in the classroom. The objectives, materials, and activities chosen to be used in this course are based on researched best practices.</p> <p>This course relates to the College of Charleston's conceptual framework and theme of making the teaching and learning connection by instructing teachers on methods to use to differentiate instruction with the assistance of technology. The course is also designed to support the Charleston County School District's Plan for Excellence, by "improving teaching and learning through the effective and efficient use of technology" (CPE, Curriculum and Instruction Improvement, Technology Plan, Goal 3).</p> <p>This graduate level course is for 45 contact hours / 3 graduate credits / 60 SDE renewal credits.</p>			
<b>Additional Information</b>	<p><b>PLEASE NOTE:</b></p> <p><i>This course requires 9 hours of independent study in addition to class meetings.</i></p> <p><i>On the first night of class you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). <b>Course</b>	TECH29315	<b>20 RECERT: Using the Interactive SMART Board to Enhance Learning - BEGINNING</b>		
<b>SRN</b>	102931534	(use this number to register for this session)		
<b>Description</b>	This course is designed to help teachers integrate the SMART Board into classroom instruction. Teachers will learn the basic functions of the SMART Board Interactive Whiteboard and SMART Notebook 10.0 software to design and use effective interactive lessons. Class activities and assignments will offer teachers integration ideas for classroom use.			
<b>Additional Information</b>	<p>SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups – each group containing no more than four members to provide hands-on experience with the SMART Board. Participants will have the opportunity to develop confidence in using the software and instructing with an interactive whiteboard. A computer lab will be available for participants to use when they work individually to plan and create lessons using SMART Notebook 10.0 software.</p> <p><i>PLEASE NOTE:</i></p> <p><i>Intended Audience: K-12 classroom teachers</i></p> <p><i>15 contact hours = 20 SDE renewal credits</i></p> <p><i>--You must attend the 1st day of class or you will be dropped from the course.</i></p> <p><i>--If there are fewer than 10 participants enrolled one week prior to the start date, this course may be cancelled.</i></p> <p><i>--Please be considerate of others. <b>Course</b>	TECH29923	<b>20 GRAD: Using the Interactive SMART Boards to Integrate THINKING MAPS</b>		
<b>SRN</b>	102992301	(use this number to register for this session)		
<b>Description</b>	Thinking Maps® are visual teaching tools that foster and encourage lifelong learning. These are based on brain research, and correspond to eight fundamental thinking processes. More than simple graphic organizers, they can be utilized individually or in various combinations to form a common visual language for students and teachers at all grade levels, in all subjects. During this course teachers will develop a strong understanding of THINKING MAPS and learn how to integrate them with the SMART Board Interactive White Board. Participants should have a fundamental knowledge of the SMART Board and Notebook software, or have already taken Using the Interactive SMART Board to Enhance Learning: Beginning course before enrolling in this course.			
<b>Additional Information</b>	<p><i>PLEASE NOTE:</i></p> <p><i>**Participants must have fundamental SMART Board and Notebook 10.0 skills before enrolling in this course, or have taken the Using the Interactive SMART Board to Enhance Learning: Beginning course before enrolling.</i></p> <p><i>On the first night of class you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check).
