<b>Course</b>	TECH29224	<b>Web 2.0: Using the New Generation of the Web to Engage Learners</b>		
<b>SRN</b>	122922402	(use this number to register for this session)		
<b>Description</b>	The second generation of the Web (Web 2.0) can be described as the use of World Wide Web technology and web design that aims to facilitate creativity, information sharing, and most notably, collaboration. This is a movement away from static web pages to dynamic and shareable content. Using Web 2.0 tools in the classroom helps teachers facilitate creativity and collaboration with students. In this course, participants will learn how to use blogs, podcasts, iGoogle, and other interactive and collaborative online tools to engage students while supporting the curriculum.

<b>Course</b>	TECH29912	<b>20 GRAD: Using the Interactive SMART Board to Enhance Learning: BEGINNING</b>		
<b>SRN</b>	122991205	(use this number to register for this session)		
<b>Description</b>	This graduate course is designed to assist teachers with the integration of the SMART Board into classroom instruction. Teachers will learn to use the basic functions of the SMART Board interactive whiteboard and SMART Notebook software to plan and design effective lessons following the Literacy Workshop Model. Guided Practice and Independent Practice will target beginning technology competencies and offer teachers integration ideas for classroom use. SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups - each group containing no more than four members to provide hands-on experience with the SMART Board, the opportunity to develop confidence in the use of its many tools and experience with the Literacy Workshop Model. A computer lab will be available for participants to use during Guided Practice and Independent Practice.			
<b>Additional Information</b>	<i>PLEASE NOTE: In order to receive graduate credit, you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). <b>Course</b>	TECH29923	<b>60 GRAD: Using the Interactive SMART Boards to Integrate THINKING MAPS</b>		
<b>SRN</b>	122992303	(use this number to register for this session)		
<b>Description</b>	Thinking Maps are visual teaching tools that foster and encourage lifelong learning. These are based on brain research, and correspond to eight fundamental thinking processes. More than simple graphic organizers, they can be utilized individually or in various combinations to form a common visual language for students and teachers at all grade levels, in all subjects. During this course teachers will develop a strong understanding of THINKING MAPS and learn how to integrate them with the SMART Board Interactive White Board. Participants should have a fundamental knowledge of the SMART Board and Notebook software, or have already taken Using the Interactive SMART Board to Enhance Learning: Beginning course before enrolling in this course.			
<b>Additional Information</b>	<p><i>PLEASE NOTE: On the first night of class you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). <b>Course</b>	TECH29517	<b>60 GRAD:Using Technology and Thinking Maps to Improve Vocabulary, Writing, &amp; Comprehension</b>		
<b>SRN</b>	122951701	(use this number to register for this session)		
<b>Description</b>	<p>This course is designed to develop an understanding of the importance of technology and thinking strategies in the overall K-5 curriculum. Teachers will be provided with the tools necessary to teach students to become successful thinkers, problem solvers, decision makers, and more importantly, lifelong learners. In addition, this course will give teachers the knowledge and skills necessary to develop content area vocabulary, to increase comprehension across content area reading, and to provide for age-appropriate writing instruction and achievement. Teachers will learn to use Thinking Maps, Improvement Rubrics, and focused mini-lessons to establish in students a solid foundation for the writing process.</p> <p>Upon completion of the course, participants will:</p> <ul style="list-style-type: none"> <li>-plan and design effective lessons and learning experiences for students using Thinking Maps</li> <li>-plan and design effective lessons and learning experiences for students in writing using Thinking Maps</li> <li>-plan and design effective lessons and learning experiences for students supported by the SMART Board</li> <li>-use technology to share information with other teachers</li> </ul> <p>Please note that participants in this class should have basic SMART Notebook skills.  This class will satisfy 30 hours in the K-2 literacy requirements.</p>			
<b>Additional Information</b>	<p><i>PLEASE NOTE: In order to receive graduate credit, you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). Teachers will learn to use the basic functions of the SMART Board interactive whiteboard and SMART Notebook software to plan and design effective lessons following the Literacy Workshop Model. Guided Practice and Independent Practice will target beginning technology competencies and offer teachers integration ideas for classroom use. SMART Boards will be available in rooms that are in close proximity to the main classroom. Class participants will be divided into small groups - each group containing no more than four members to provide hands-on experience with the SMART Board, the opportunity to develop confidence in the use of its many tools and experience with the Literacy Workshop Model. A computer lab will be available for participants to use during Guided Practice and Independent Practice.</p>	
<b>Additional Information</b>	<p><i>PLEASE NOTE: In order to receive graduate credit, you must complete online registration for the College of Charleston which has a \$5 fee (payable by credit card, debit card or electronic check). Directions for C of C registration will be provided by email prior to the start of class.
