

# Power Point Presentation Handout

## SAIL Class

For this project, you will be pairing up with a partner to create a power point presentation. You will be assigned one author from the South Carolina book award nominees and will choose one book written by this author to read and study. Once you have finished reading the book, you will create 5 power point slides on the computer to advertise this book for someone who has never read it before. The first slide will be a title slide. This slide will include the title of your book, the author, publishing company, publishing city, copyright date, and book genre. Your second slide will be the cover of your book scanned into the computer. The third slide will be a brief summary about the book for someone who has never read it before. The fourth slide will highlight your reactions to the book. Finally, the fifth slide will focus on what group of readers you would recommend your book to. At the completion of this project, you and your partner will be giving a book-talk on your chosen author utilizing the power point presentation you created. Your presentation will be graded on the following rubric:
